EDUCATION

Charotar University of Science & Technology
Bachelor of Technology (Computer Science & Engineering)
CGPA: 9.2

Anand, Gujarat
2021 – 2025

Swaminarayan Vidyamandir (SVM)
Higher Secondary
Percentage: 84

Bakrol, Gujarat
2019 – 2021

EXPERIENCE

Software Development Engineer
Odoo

Jun 2025 – Present
Gandhinagar, Gujarat

- Developed and maintained 15+ production-grade features in Odoo ERP using **Python**, **Odoo ORM**, and **JavaScript**, supporting modular and scalable business workflows.
- Optimized site architecture, **SEO**, template structure, static assets, and component lifecycles to reduce page load times and improve runtime performance.
- Integrated third-party services and frontend APIs including **Google Maps** (Places, AdvancedMarkerElement) for location-based features.

Software Developer Intern

Jan 2025 - May 2025

- Developed and scaled a Real Estate module using **Python**, **Odoo ORM**, implementing **10+ data models and controllers** and automated server actions.
- Designed and integrated **XML** views and **QWeb templates**, enabling seamless frontend-backend interaction within the ERP framework.
- Worked with access control rules and record-level security to ensure data integrity and role-based permissions.

Frontend Developer Intern
Codentic Software

May 2023 – Jun 2023
Vidyanagar, Gujarat

- Developed **10+** responsive, reusable components using **React.js** with component-based architecture and hooks.
- Implemented stateful UI behavior across devices using React props and state management patterns.
- Used **Git** for version control, managing feature branches and participating in code reviews.

PROJECTS

BuildFlow | *TypeScript, Node.js, Express, Redis, CloudFlare*

- Built a deployment platform using **TypeScript**, **Node.js**, and **Express** to automate build, bundle, and hosting workflows for **React/Vite applications**, reducing manual deployment steps by **30%**.
- Designed a scalable architecture with **2** isolated services (upload and deploy), using **Redis** to coordinate asynchronous tasks and handle parallel deployments.

ChatGPT Prompt Indexer | *Vite JS, Vite Plugin, TailwindCSS*

- Built a browser-based prompt indexing and search tool using **Vite** and **JavaScript**, enabling fast lookup, filtering, and navigation across long ChatGPT sessions.

Whisper | *Vite JS, Node.js, TailwindCSS, MongoDB*

- Developed a full-stack discussion platform using **Vite.js**, **Node.js**, and **MongoDB**, enabling anonymous posting and real-time interactions.
- Implemented secure backend APIs and a responsive frontend using **Vite** and **TailwindCSS** for university-scale communities.

TECHNICAL SKILLS

Languages & Tools: JavaScript, TypeScript, Java, Python, C/C++, SQL, HTML/CSS, Git, Docker, AWS
Frontend Frameworks: React/Vite/Next, TailwindCSS, Material-UI, shadcn/ui
Backend Frameworks: Node.js, Express.js, Odoo ORM
Database: PostgreSQL, MongoDB, Redis
